

March 18, 2020

At Lewistown Rental we try to be hands-on/common-sense people, and we will remain open and ready to serve our customers – we understand that ag producers and contractors will continue to work, so we will too.

We are also safety-first for our customers and employees, and for those reasons we will be taking extra precautions as recommended by the CDC and MT Department of Public Health and Human Services to protect your families and our own as we work through these next weeks and months together.

- We will limit physical contact and maintain at least a 6' distance, including a 'no hand shake' policy
- We have hand sanitizers at the front counters for your use and our own, and will be washing hands frequently
- Pens at the counter are yours to keep after you sign your contract
- We will not ask for your signature on electronic equipment check-outs
- This week we will begin using a bleach solution and ozone generators to disinfect the interior of cabs on equipment between rents.

In addition, all of our pricing is online at www.lewistownrental.com and we are happy to take your reservation over the phone at (406) 538-9033 to save you a trip to the store.

We will continue to approach this pandemic as we would any other hazard in the workplace: taking every possible precaution to keep everyone safe as we perform the work our country and our communities rely on.

Sincerely,

Clyde Merwin
Managing Member
